Encouraging reports come from all portions of Oklahoma in regard to the rainfall and in the western portion which was beginning to suffer somewhat from the effects of dry weather there have been reports that heavy rains have fallen within the last few days.

Great interest is felt through the Creek and Cherokee nations in the building of a new railroad from South McAlester to Wichita.

The Santa Fe reached Shawnee Tuesday afternoon. This gives that town two roads with three more to follow between now and fall.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by J. N. Wallace.

DISEASED KIDNEYS

Cause One-third of All Deaths.

Faint in small of back, painful passing of urine, inflammation of the bladder, torpid liver, cloudy urine, pains in the back of the head and neck, rheumatic pains and swellings all over the body, eczema and jaundice show that your kidneys are diseased. If you have

any of these symptoms, great care should be taken to stop the progress of the disease and prevent it becoming chronic, progressing the entire system and causing death. Thousands of unsolicited letters are received daily from grateful men and women who have been cured by Warner's Safe Cure.

DOCTORS GAVE HIM UP.

Dear Sirs: "Eighteen years ago was suffering from kidney complaint, and for two years was very low. The doctors had given me up unless I went through an operation. At that time I heard of 'Safe Cure,' and immediately stopped all doctors and commenced using your remedy. For the last fifteen years and a half have enjoyed perfect health." JOHN C. FELZER, Denham, Ind.

COULD NOT SLEEP.

Dear Sirs: "I have taken two large, and two small bottles of Warner's Safe Cure, which I can gladly say have cured me of kidney trouble, for which I had to be up from two to three times at night; now I can rest without getting up. I had severe pains in kidneys and back, and I have no more pain, and am sure that it was through your 'Safe Cure' that I now enjoy good health." J. F. SAUNDERS, Long Beach, Cal.

TEST YOUR KIDNEYS.

After your morning urine stands 24 hours, if you find a reddish, brick dust sediment in it, or particles floating in the urine, or if it is cloudy, you will know your kidneys are in a diseased condition and are unable to perform their work.

"SAFE CURE"

CURES WEAK KIDNEYS.

"Safe Cure" is a most valuable and effective tonic. It repairs the tissues, soothes inflammation and irritation, awakens the torpid liver, aids digestion, stimulates the enfeebled organs and heals at the same time.

"Safe Cure" is purely vegetable and contains no harmful drugs. It is free from sediment and is pleasant to take.

You can buy "Safe Cure" at any drug store or direct—50c and \$1 a bottle.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

Franchise Discussed

(Continued from page 1.)

will have charge of the engineering department, will arrive tonight. The company has no definite proposition to make tonight, but I can assure you, gentlemen, that this is no wild-goose chase, but they have come here on a strictly business proposition. They hold out no delusive hopes, nor but air talk but are simply here to investigate the conditions as they find them and ask the opportunity be granted them to report back to the board of directors of their company as they have found conditions to exist. We are all interested in seeing a street railway company come to this city, but I am told that if this company decides to ask a franchise of the city that it is their intention to put in addition to the street railway, a gas and electric light plant. I desire to say that it would be strictly a Guthrie project and would not be connected with any other concern. (Applause). The Mercantile Trust company is looking for investments, and is backed up with sufficient capital to push the project.

St. Louis Man Talks.

Mr. Harris being called upon said: "We expect to complete our investigations tomorrow afternoon and leave for St. Louis. We will submit everything to the board of directors, but it would be impossible for us to report upon any action that the company may take in this matter before next Thursday night. I was told at Oklahoma City today that no other company was asking for the franchise and I do not believe it would retard the city's advancement to postpone this matter until the next meeting of the council. We will say this, however, that we like your city and are favorably impressed."

Alderman McBride: "If your company is granted the franchise would you put up a sufficient cash bonus to carry out your desires?"

Mr. Harris: "We can put up \$10,000,000 if necessary."

Alderman McBride, chairman of the public improvement committee, submitted a report upon the matter of widening the walks along Harrison avenue, which was unfavorable to any proposed action. The reasons given by the committee were that the curbing would have to be moved at a great cost; the brick now being placed on the sidewalks for use in the street paving, transferred; the water pipes removed and replaced and the telephone poles reset. The report was adopted.

An Honest Sewer Contract.

An ordinance creating a lateral sewer in blocks 15, 29 and 30 was passed. Previous to the passing of the ordinance, a petition signed by a majority of the property owners in that district protesting against the putting in of a sewer, was read.

The bids for the construction of lateral sewer No. 12 was opened and

Power & Stiles, \$790.

Mayor Barnes and H. M. Fielding reported upon the recent trip of investigation as follows:

"We visited the cities of Topeka, Joplin, Coffeyville, Parsons and Kansas City and have conferred with contractors regarding the paving contracts and would report that the Guthrie contract is a fairly good contract."

Mayor Barnes then announced the following appointments which were confirmed by the council.

City Collector—R. W. Myers.

Engineer at Water Works Plant—Wm. Gregory.

Stock Commissioner—Wesley McGill.

The petition of "Oklahoma Charley" asking for the appointment of health commissioners was referred to the health committee.

Willard Stapleton applied for the position of inspector of the street paving and the petition was referred to the committee on public improvements.
